

2016
BEAD, SPARKLE & BLING!!
Week 5
July 10—July 16, 2016

Get ready to expand your jewelry creation knowledge as we introduce and master a variety of jewelry techniques. Each morning, Michelle, from the JSM Bead Coop, will bring us a new project to create *and* complete! You choose the colors and styles to personalize each project, and Michelle brings all the other materials and supplies. New projects are planned for this summer. Each participant will try new techniques using a variety of materials to create bracelets, earrings, necklace pendants, keyrings and more! All beads used will be made from glass or other natural materials such as pearl, wood, or crystal. Only jeweler-grade wire and other findings will be used to finish your projects, no fishing wire or stretchy cord here! So, if you're ready to take your jewelry creations up a notch, then bring your creativity and let the fun begin!!

What to look forward to:

- Expert instruction from a current bead store manager
- 5 New, easy, yet stylish projects to take home and wear
- Learn new jewelry techniques
- Customizable projects (bead selection, colors)
- Great-looking pieces that YOU made!!

What to Bring?

- Creativity
- Patience
- A great attitude!
