

2018
Aerial Adventure Course Day Trip
Suamico, WI
June 20, July 6, July 13, July 25,
9am-3pm

This isn't your average high ropes course! Prepare yourself for an interactive and challenging experience in which you explore and move through the course at your own pace and challenge level. All participants complete "Ground School" where they demonstrate competency using the Smart Snap" safety system. Being responsible for transferring their own safety lanyard from one element to the next allows the participant to be in control of their own experience. 16 different elements on three levels of varying difficulty await you. Test your courage with the Quick Jump that includes an 8' free fall followed by a slow lower to the ground. Climb to new heights on the three-sided 40-foot climbing structure. Put your balance to the test on the slack-lines. And lastly, race a friend on the side-by-side, 1,000-foot long dual racing zip lines. Finish your exhilarating and extreme experience with a picnic lunch and then head back to Camp for afternoon and evening activities.

What to look forward to:

- 3 levels of personal challenge on elements including the Tension Traverse, Spider Web, Floating Islands, Heebie Geebie and High Wobble Bridge
- An aerial adventure in which you are fully in control and never waiting on the ground.
- Racing zip lines and the potential to reach speeds of 35 to 40 miles per hour. Minimum weight is 70lbs.
- An awesome experience!

What to Bring?

- A **signed** NEW Zoo and Adventure Park Waiver
- Comfortable clothes, a full-body harness will be used
- Water bottle and sunscreen
- A great attitude and willingness to challenge yourself to reach new heights
