A note from CAMP ANOKIJIG...

While not required, vaccination for COVID-19 is highly recommended by the CDC and by Camp Anokijig for the best protection. However, testing or vaccination will not be required at camp. We do ask that everyone take seriously the advice regarding symptoms or exposure. Like we did when our kids were in day care, if someone in your party has recently experienced COVID-19 symptoms or had close contact with someone who did, please have them stay home.
